

Valued Customer,

Thank you very much for enrolling in our automatic delivery program. In order to receive the \$150 promotion you will need to purchase 1500 gallons of heating oil through us on automatic delivery. There is no penalty if you decide to terminate your service before the required amount is reached but you simply will be responsible for the amount of the promotion.

Michael McGrath Inc. will not be liable for any damage or losses in the event of non-performance. Though extremely accurate the automatic forecasting is not flawless. Changes in burn rates, domestic patterns, clerical and software error can contribute to low oil levels. It is recommended to be prudent with your tank levels and ordering.

If you could complete and return this statement you will be eligible for the promotional offer.
